Electronic Arts Presents: SOFTWARE FOR LIFE

 You may have noticed that your computer isn't what it used to be. What it used to be, if you're anything like us, was a brand-new, state-of-the-art 8-bit miracle. You bought stacks and stacks of software for it. Spent quite a few long evenings with it. Amazed your friends and irritated your family with it. Ah, but that was a long time ago... Time marched forward. The old 8-bit went the way of disco music and bell-bottoms. And your new 16-bit machine made your entire software library instantly obsolete. No more Marble Madness™, no more Starfleet I™, no more long Saturdays with the Chessmaster... But Now! The Electronic Arts' Software for Life policy lets you obtain your old software for your new machine. Just send us the manual cover from the title you want replaced and get **50% off the usual retail price**. All exchanges are title for title. There's more information on the order form at the back of this brochure. While you're getting there, we invite you to stop and check out our latest selection of the greatest software ever!
